

# Vermont Medicaid Dental Supplement

## **Table of Contents**

| SECTION 1 | INTRODUCTION   | 5  |
|-----------|--|----|
| 1.1       | HIPAA and Claims Submission  | 5  |
| SECTION 2 | BILLING INFORMATION  | 6  |
| 2.1       | Adult Program (AP)   | 6  |
| 2.1.1     | Exception to Adult Program Limit for Pregnancy                               | 6  |
| 2.1.2     | Exception to Adult Program Emergency Dental Services                         | 6  |
| 2.1.3     | Exception to Adult Program Waiver Program Dental Services                    | 6  |
| 2.2       | By Report  | 7  |
| 2.3       | Anesthesia   | 7  |
| 2.4       | Area of Oral Cavity  | 7  |
| 2.5       | Attending Physician/Attending Practitioner                                   | 8  |
| 2.6       | Billing Members for Dental Services Exceeding Annual Cap                     | 8  |
| 2.7       | Billing Members for Dental Services That Are Non-Covered by Vermont Medicaid | 8  |
| 2.8       | Date of Service  | 9  |
| 2.9       | Dental Covered Services  | 9  |
| 2.10      | Early and Periodic Screening, Diagnostic and Treatment (EPSDT Program)       | 9  |
| 2.11      | Fluorides (By Prescription)  | 9  |
| 2.12      | Global (Post-Operative) Period   | 10 |
| 2.13      | Hospital Calls   | 10 |
| 2.14      | Information Available (Voice Response System)                                | 10 |
| 2.15      | Internal Control Number (ICN)  | 10 |
| 2.16      | Interpreter Services   | 10 |
| 2.17      | Medical Necessity  | 10 |
| 2.18      | Member Cost Sharing/Co-Pays  | 10 |
| 2.18.1    | Exceptions to Co-Payments  | 11 |
| 2.19      | Missed Appointments/Late Cancellations                                       | 11 |
| 2.20      | Modifiers  | 11 |
| 2.21      | Multiple Page Claims   | 12 |
| 2.22      | Oral Surgery   | 12 |
| 2.23      | Prior Authorization  | 12 |
| 2.24      | Radiographs - Submission Requirements  | 12 |
| 2.25      | Spenddown  | 12 |
| 2.26      | Supernumerary Teeth  | 13 |
| 2.27      | TMJ Device   | 13 |
| 2.28      | Telemedicine   | 13 |
| 2.29      | Unlisted Services  | 13 |
| 2.30      | Usual and Customary Charges  | 13 |
| 2.31      | Recoupment   | 14 |
| 2.32      | Other Insurance  | 14 |
| SECTION 3 |  | 15 |
| SECTION 4 | GENERAL PROGRAM - (COVERED SERVICES FOR MEMBERS OF ALL AGES.                 |    |
|           | ADDITIONAL SERVICES FOR UNDER AGE OF 21, SEE SECTION 5)                      | 16 |
| 4.1       | Clinical Oral Evaluation   | 16 |
| 4.2       | Radiographs  | 16 |
| 4.3       | Other Diagnostic Procedures  | 17 |
| 4.4       | Preventive Treatment   | 17 |

|     | 4.5    | Topical Fluoride Treatment                             | . 17 |
|-----|--------|--|------|
|     | 4.6    | Other Preventive Services                              | .18  |
|     | 4.7    | Restorative  | .18  |
|     | 4.7.1  | Amalgam Restorations                                   | .19  |
|     | 4.7.2  | Resin-Based Restorations                               | .19  |
|     | 4.7.3  | Custom Crowns  | .19  |
|     | 4.7.4  | Prefabricated Crowns                                   | .19  |
|     | 4.8    | Other Restorative Procedures                           | 20   |
|     | 4.9    | Endodontics  | 20   |
|     | 4.9.1  | Pulpotomy  | 20   |
|     | 4.9.2  | Endodontic Therapy for Primary Teeth                   | 20   |
|     | 4.9.3  | Endodontic Therapy                                     | 20   |
|     | 4.9.4  | Apicoectomy/Periradicular Surgery                      |      |
|     | 4.10   | Periodontics   |      |
|     | 4.10.1 | Surgical Services (10 Day Global)                      | . 21 |
|     |        | Other Periodontal Services                             |      |
|     | 4.11   | Removable Prosthodontics.                              |      |
|     | 4.11.1 | Denture Adjustments                                    |      |
|     | 4.11.2 | Other Removable Prosthetic Services                    |      |
|     | 4.12   | Fixed Prosthodontics                                   |      |
|     | 4.12.1 |  |      |
|     |        | Other Prosthodontic Services                           |      |
|     | 4.13   | Oral and Maxillofacial Surgery                         |      |
|     |        | Extractions  |      |

| SECTION 9        | ADULT EMERGENCY DENTAL SERVICES  | 56 |
| SECTION 10       | O SPECIAL INVESTIGATIONS UNIT  | 58 |

## **Section 1** Introduction

The Department of Vermont Health Access (DVHA) Medicaid Dental Supplement contains billing information and benefit information. If using the ADA Dental Claim Form, only the 2019 edition will be accepted by Medicaid. Though dental practitioners are not required to include a diagnosis code when submitting claims to Vermont Medicaid, if they choose to include codes, they must be valid. For more information/instructions about the 2019 Dental Claim Forms, see the dental resources available on the Vermont Medicaid Portal, <a href="https://vtmedicaid.com/#/resources">https://vtmedicaid.com/#/resources</a>. Providers billing for services represented by CPT or HCPCS codes may bill using either the 2019 ADA Dental Claim Form or the CMS-1500 Claim Form. For more information see the Provider Manual: <a href="https://vtmedicaid.com/#/manuals">https://vtmedicaid.com/#/manuals</a>.

Please note: This manual is updated on a regular basis. If you print it out, please verify you are using the most up to date version as it appears on <a href="https://vtmedicaid.com/#/manuals">https://vtmedicaid.com/#/manuals</a>.

## 1.1 HIPAA and Claims Submission

Providers are reminded that the claim form field locator information available on the Vermont Medicaid Portal is for use with paper transactions. Providers using HIPAA compliant software to submit electronic claims may access the electronic requirements at the Washington Publishing website at <a href="https://wpc-edi.com/">https://wpc-edi.com/</a>.

## **Section 2 Billing Information**

## 2.1 Adult Program (AP)

The Adult Program is limited to \$1,500 per individual per calendar year (annual cap).

If an individual reaches their 21st birthday and has received dental care during the course of the year, the dental benefit already reimbursed will be applied to the annual \$1,500 adult maximum benefit. The benefit is considered exhausted if the total reimbursement is greater than or equal to \$1,500 and will not begin again until the start of the new calendar year.

## 2.1.1 Exception to Adult Program Limit for Pregnancy

Pregnant adults receiving benefits under the Vermont Medicaid program receive full dental benefits. This includes coverage of all medically necessary dental services in Section 7 (Dental Covered Services) that are listed as "no" for the adult dental benefit and without the adult annual cap on dental expenditures. This benefit will be in effect during pregnancy and for 12 months after the pregnancy ends. At the end of the 12-month period after pregnancy, individuals who remain eligible for Medicaid have the same benefit as other adults, including the annual cap. The adult dental cap applies through the end of the current calendar year.

It is the members' responsibility to contact Member Services (800.250.8427) to initiate steps to have their eligibility status reflect pregnancy.

All dental providers are reminded to use the HD Modifier at the end of each procedure code when submitting claims for members who are pregnant (during pregnancy and for 12 months after the pregnancy ends.) and receiving benefits under the Vermont Medicaid program. This will exclude the claim from the application of the adult dental cap.

## 2.1.2 Exception to Adult Program Emergency Dental Services

Emergency dental services for adults aged 21 and older are covered after the adult annual cap on dental expenditures has been reached. Emergency dental services are those used to treat acute pain, infection, or bleeding that can be delivered in a dental office rather than an emergency setting. Medically necessary emergency dental services include the dental service codes currently covered under the General Assistance (GA) Voucher Program administered by the Department for Children and Families (DCF). These emergency dental service codes will now be covered under the Medicaid dental benefit and Medicaid members will not need approval via the GA Program. Medicaid members under the age of 21, and those who are pregnant or in the 12-month postpartum eligibility period, are not subject to the annual cap on dental services.

The KX modifier should be added for billing at the end of each emergency procedure code submitted for adult members after the annual cap has been met (the covered codes are listed at Section 9 of this document). This will allow the claim to be reimbursed after the cap has been met.

#### 2.1.3 Exception to Adult Program Waiver Program Dental Services

Adult dental services are available without an annual cap on expenditures for individuals receiving services in the Department of Aging and Independent Living (DAIL) Developmental Disability Services (DDS) Waiver Program, or the Department of Mental Health (DMH) Community Rehabilitation and Treatment (CRT) Waiver Program. There is also coverage for medically necessary denture services for these groups. These groups of adults often have an increased need for dental services that exceeds the annual cap on dental expenditures. Members of each of these two waiver groups may self-identify with their dental provider or provide additional eligibility information.

For both of these waiver groups, the CG modifier should be added for billing at the end of each procedure code submitted for adult members. This will allow the claim to be reimbursed without utilizing the annual cap.

To confirm whether Medicaid members being treated are in these groups, call Gainwell Provider Services at 800-925-1706. For the CRT waiver group only, dental providers also can check within the VT Medicaid eligibility portal to determine if the member shows a coverage description of "case rate" – this will confirm their waiver group eligibility.

## 2.2 By Report

In Section 7, Dental Covered Services, when a procedure code is followed by the words "by report", providers are no longer required to send a description of the service along with the claim form to DVHA. However, it is important to document a detailed description of what services were delivered into treatment notes in the event that a chart review is required later in connection with this claim.

#### 2.3 Anesthesia

Dentists with appropriate anesthesia credentials may bill for general anesthesia administered in the office, on a 2019 ADA Dental Claim Form.

Local anesthesia, or topical anesthesia used by dentists are not reimbursable as a separate service. This would be covered as part of the reimbursement for the procedure.

## 2.4 Area of Oral Cavity

Claims for services that do not include Area of Oral Cavity information, when required, will be denied. When submitting claims, note the following directions to ensure the correct reporting of Item #25 (Area of Oral Cavity) per ADA instructions: Use of Item #25 (Area of Oral Cavity) is conditional.

The following conditional use requirements apply:

- Always report the area of the oral cavity when the procedure reported in Item #29 (Procedure Code) refers to a quadrant or arch and the area of the oral cavity is not uniquely defined by the procedure's nomenclature.
  - Example: Report the applicable area of the oral cavity when the procedure code nomenclature includes a general reference to an arch or quadrant, such as D4263 bone replacement graft – first site in quadrant.
- Do not report the applicable area of the oral cavity when the procedure either:
  - Incorporates a specific area of the oral cavity in its nomenclature, such as D5110 complete denture – maxillary;

-or-

 Does not relate to any portion of the oral cavity, such as D9222 deep sedation/general anesthesia – first 15 minutes.

Area of oral cavity is designated by one of the following two-digit codes:

- 00-entire oral cavity, 01-maxillary arch, 02-mandibular arch, 10-upper right quadrant,
- 20-upper left quadrant, 30-lower left quadrant, 40-lower right quadrant.

In order to facilitate correct claims completion by providers, DVHA has identified the procedure codes that require the reporting of this field. Refer to the <u>Procedure Codes that require reporting for Area of Oral Cavity</u> section.

## 2.5 Attending Physician/Attending Practitioner

An attending medical/dental provider is the medical/dental provider who actually performs the service. The attending provider must be enrolled as a participating Vermont Medicaid provider.

When billing on the CMS-1500 claim form, the attending provider NPI # must appear in field 24 for each line of service being billed. The 2019 Dental Claim Form requires the attending provider NPI # to be listed in field 54.

## 2.6 Billing Members for Dental Services Exceeding Annual Cap

Providers may, after obtaining written acknowledgement of financial liability from the member, bill patients for amounts that exceed the adult annual capped payment amount but not more than the appropriate procedure code rate in the Vermont Medicaid Fee Schedule, if it is a Vermont Medicaid covered service. Written acknowledgement of financial liability must be obtained from the member prior to performing services.

The provider must:

- 1. Verify that the member is still eligible for Medicaid on the date the service is provided; and
- 2. Meet the following conditions when billing for a Medicaid covered service:
  - a. Bill any other liable third parties prior to billing Medicaid member; and
  - b. Accept the Medicaid payment rate as payment in full and bill the member only for any applicable co-payments; and
  - c. File a report with the department or its agent, including all necessary information about the service and the identifying information from the member's identification document.
- 3. Meet the following conditions prior to billing a member for a service that exceeds the annual cap:
  - a. Verify that the services exceeds the cap,
  - b. The provider must advise the member that Medicaid will not pay for the service before delivering the service; and
  - c. The provider and patient must have a signed written agreement in place before delivering the services that specifically describes the services to be delivered and the amount that the member must pay.

## 2.7 Billing Members for Dental Services That Are Non-Covered by Vermont Medicaid

Providers may, after obtaining written acknowledgement of financial liability from the member, bill patients for services not covered by Vermont Medicaid. Providers must confirm and document verification that a service is not covered by Vermont Medicaid prior to billing a member.

See Vermont Medicaid General Billing and Forms Manual, Section 1.6, Notice That Vermont Medicaid Will Not Be Accepted, <a href="https://dvha.vermont.gov/providers/manuals">https://dvha.vermont.gov/providers/manuals</a> for additional information, including the requirements of comprehensive documentation showing evidence of proper notice.

Usual & Customary charges may not be billed to a Vermont Medicaid member without prior written communication to the member explaining their financial liability should they choose to receive a service that is not covered by Vermont Medicaid.

#### 2.8 Date of Service

The date of service on the claim must be the date that the service was performed. When the service spans over several appointments, the date of service will be the date that the service started. For example: for orthodontics or crowns, the start date is billed as the date of service.

#### 2.9 Dental Covered Services

The dental covered services are in <u>Section 7</u> of this manual, and the most current version of this supplement is available on the DVHA website at <a href="https://dvha.vermont.gov/providers/dental">https://dvha.vermont.gov/providers/dental</a>. For information/instructions about code reimbursement rates and to determine if a prior authorization (PA) is required, visit the Fee Schedule on the Vermont Medicaid Portal: <a href="https://vtmedicaid.com/#/feeSchedule">https://vtmedicaid.com/#/feeSchedule</a>.

Procedure codes not covered by DVHA's Dental Program are not listed.

## 2.10 Early and Periodic Screening, Diagnostic and Treatment (EPSDT Program)

EPSDT is a federally mandated benefit for all Vermont Medicaid eligible children under age 21. EPSDT requires the state to provide any health care service that is medically necessary, even if the service is not covered for adults. EPSDT services do not have hard limits or caps, any published can be exceeded when medically necessary with an EPSDT prior authorization request. EPSDT services include periodic screenings to identify physical and mental conditions, vision, hearing, dental problems and follow-up diagnostic and treatment services.

All providers should deliver pediatric screening and preventive dental services according to the Vermont dental periodicity schedule found at:

https://www.healthvermont.gov/sites/default/files/documents/pdf/Vermont Dental Periodicity Schedule.pdf

Vermont Medicaid tracks service delivery and follow-up and annually reports EPSDT CMS 416 measures by collection of data from Vermont Medicaid claims. The link to the CMS page is: <a href="https://www.medicaid.gov/medicaid/benefits/early-and-periodic-screening-diagnostic-and-treatment/index.html">https://www.medicaid.gov/medicaid/benefits/early-and-periodic-screening-diagnostic-and-treatment/index.html</a>

The 2019 ADA Dental Claim Form requires EPSDT to be listed in field 1.

See the Vermont Medicaid General Billing and Forms Manual, Section 5.3.18, EPSDT Program Well – Child Health Care. <a href="https://www.vtmedicaid.com/#/manuals">https://www.vtmedicaid.com/#/manuals</a>

## 2.11 Fluorides (By Prescription)

Vermont Medicaid reimburses for fluorides when prescribed by a participating medical/dental provider for children and adults. Prescription strength topical fluorides are covered for products designed solely for use in the dental office. Fluoride must be applied separately from prophylaxis paste.

Fluorides in combination with vitamins are covered. Please see Section 7, Dental Covered Services, for allowed billing codes and unit limitations. For more information see OTC web list, https://dvha.vermont.gov/sites/dvha/files/documents/OTCWebList\_2.pdf.

## 2.12 Global (Post-Operative) Period

Effective for dates of service on and after June 1, 2016: Vermont Medicaid is enforcing a 10-day global period for certain dental procedure codes. During the dental global period, any palliative treatment for pain is considered included in the payment for the primary procedure for that date and will not be reimbursed separately. Please refer to Section 7, Dental Covered Services, for code specific guidance.

## 2.13 Hospital Calls

Use the appropriate procedure code for hospital calls when billing in conjunction with a surgery where the patient is admitted as an inpatient or outpatient at a hospital. The pre-operative exam and all other related services are reimbursed within the billed surgery codes. Do not submit for them separately.

## 2.14 Information Available (Voice Response System)

Dental Providers accessing the VRS have access to the following:

- Adult dental benefit (dollars spent)
- Last dental oral exam

See the Vermont Medicaid General Provider Manual, Section 1.4.1, Eligibility Verification for more information. https://vtmedicaid.com/#/manuals

## 2.15 Internal Control Number (ICN)

This term refers to the Internal Control Number (ICN) assigned by the Claims Processing Agent to each claim submitted.

See the Vermont Medicaid General Provider Manual, Section 10, Glossary of Terms & Phrases. https://vtmedicaid.com/#/manuals

## 2.16 Interpreter Services

A provider who pays for interpreter services for Vermont Medicaid members may bill procedure code T1013 for each 15 minutes of reimbursed interpreter services provided, on-site or via telephone. This may include interpreter service outside of the actual healthcare provider encounter to fill out forms or review information/instructions.

Services for interpreters can be billed on the 2019 ADA Claim Form. One unit of service is equal to 15 minutes. These services do not count toward the adult maximum benefit.

## 2.17 Medical Necessity

See the Vermont Medicaid General Billing and Forms Manual, Section 2.5, Medical Necessity. <a href="https://vtmedicaid.com/#/manuals">https://vtmedicaid.com/#/manuals</a>

## 2.18 Member Cost Sharing/Co-Pays

Certain members must participate in the cost of care for dental services.

The co-payment for dental services is \$3 per provider per date of service unless exemptions apply. Gainwell Technology will automatically deduct the co-payment from the amount reimbursed to the provider.

See Medicaid Health Care Administrative Rule 6.100 Medicaid Cost Sharing for the complete list of exceptions and exemptions.

Co-payments are never required of Vermont Medicaid members who are:

- Under age 21
- During pregnancy and for 12 months after the pregnancy ends.
- Living in a long-term care facility, nursing home, or hospice

Co-payments are not required for preventive dental visits (see Section 2.19.1 below).

Co-payments are also not required for emergency services.

Although some members are required to make co-payments under Vermont Medicaid, if the member is unable to make the payment, Vermont Medicaid providers may not deny services. Per section 1916(c) of the Social Security Act, "no provider participating under the State [Medicaid] plan may deny care of services to an individual eligible for [Medicaid] because of an individual's inability to pay [the copayment]."

## 2.18.1 Exceptions to Co-Payments

- 1. Preventive visits that include only codes from this list (D1110, D1206, D1208, D1320, D0120) do not have a co-pay. If other codes are performed on the same day, a co-pay applies.
- 2. There is no copay for emergency service after the cap is met.
- 3. There is no co-payment for pregnant members and for 12 months after the pregnancy ends. Gainwell Technology may not have this information on file. When submitting claim forms to Gainwell Technology for payment, you must indicate pregnancy and 12 months after pregnancy by adding the "HD" modifier to the end of each procedure code. The "HD" modifier must be used for all procedures. For example, when submitting for a periodic oral evaluation, use procedure code D0120HD.

## 2.19 Missed Appointments/Late Cancellations

Please use the following codes for Missed or Cancelled appointments:

- D9986 Missed Appointment
   Lay Description: The patient missed an appointment without prior notification.
- D9987 Cancelled Appointment
   Lay Description: The patient cancels a previously scheduled appointment with the dentist.

Please note that these codes are not reimbursable by Vermont Medicaid and are used for reporting purposes only.

#### 2.20 Modifiers

The DVHA permits the use of modifiers, after billing codes, for example D0120HD, when billing exception situations apply: 1) to indicate a member is pregnant or in the 12 months after the pregnancy ends period, the modifier "HD" must be used to submit a HIPAA compliant transaction. Providers billing on paper shall bill using the "HD" modifier until notified further. 2) to indicate an adult using emergency dental services covered after the adult annual cap on dental expenditures has been reached, use the "KX" modifier to submit a HIPPA compliant transaction. Providers billing on paper shall also bill using the "KX" modifier. Similarly, other modifier that can be used are U9 (sealant reduced price) and CG (DAIL and DDS waiver program).

## 2.21 Multiple Page Claims

When billing a multiple page claim, you must indicate "page x of y" in Box 35, in the Remarks field of the dental claim form (see example below). The total billed amount should be reflected on the last page of the claim in field 33, the Total Fee field of the dental claim form.

Example: page 1 of 3 (1st page of claim), 2 of 3 (2nd page of claim) and 3 of 3 (3rd page of claim).

The attending dentist's NPI number must appear on page 1of the claim in field locator 54.

## 2.22 Oral Surgery

Services which are defined as medical may be submitted on the CMS-1500 claim form **or** on the 2019 ADA Dental Claim Form using current CPT or HCPCS codes. If there is a CDT code on file for services provided, the provider may bill on the accepted ADA claim form using CDT codes.

#### 2.23 Prior Authorization

Dental and orthodontic prior authorizations (PA) are reviewed by the DVHA. Dentists and oral surgeons must obtain authorization to perform certain dental procedures. These procedures and appliance codes are listed in the VT Medicaid Fee Schedule at: <a href="https://www.vtmedicaid.com/#/fee">https://www.vtmedicaid.com/#/fee</a> Schedule/hcpcs

Request for dental prior authorization must be sent to one of the following:

Email: AHS.DVHAClinicalUnit@vermont.gov

Fax: 802.879.5963

Mail: Department of Vermont Health Access

Clinical Operations Unit 280 State Drive, NOB 1 South Waterbury, VT 05671-1010

For more information see the Vermont Medicaid General Billing and Forms Manual and the General Provider Manual at: https://vtmedicaid.com/#/manuals.

## 2.24 Radiographs – Submission Requirements

Radiographs should never be sent to the Vermont Medicaid processing agent when submitting claims, unless requested. Radiographs are required when submitting PA requests to the DVHA Clinical Unit for orthodontic treatment.

#### 2.25 Spenddown

Some persons become eligible for Vermont Medicaid benefits only after incurring a specific amount of healthcare costs over a specific period. Vermont Medicaid eligibility for this type of case begins on any day of the month in which the person incurs the specified amount. When the person is determined to be eligible for Vermont Medicaid, the Health Access Eligibility and Enrollment Unit (HAEEU) worker sends a letter to the provider informing the provider that the spend down amount has been met or that a remaining amount should be deducted from a particular bill before billing Vermont Medicaid for the remainder.

Claims, which are submitted with the first day of eligibility as the date of service must have the spend-down letter from the HAEEU office attached. If the spend down letter is not attached to the claim, the claim will be denied.

To complete the claim form involving a spend-down, the provider must do the following:

- Bill their usual and customary charge
- Total all detail charges billed
- The amount of spend down must be entered in the other insurance payment field
- The Notice of Spenddown Determination form is required to be attached to the claim

Reimbursement will be the Vermont Medicaid allowed amount, less the spend down amount.

See Vermont Medicaid General Billing and Forms Manual, Section 4.15, Spenddown, for additional information. https://vtmedicaid.com/#/manuals

## 2.26 Supernumerary Teeth

The DVHA uses the ADA approved coding system in regard to billing for supernumerary teeth.

Permanent supernumerary teeth are identified using the numbers 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81 and 82. This coding system begins with the area of the upper right third molar, following around the upper arch and continuing on the lower arch to the area of the lower right third molar. For example: supernumerary tooth number 51 is adjacent to the upper right third molar 1 and supernumerary tooth 82 is adjacent to the lower right third molar number 32.

Primary (baby) supernumerary teeth are identified by the placement of the letter "S" following the letter identifying the adjacent primary tooth. For example: supernumerary "AS" is adjacent to "A". The list of primary supernumerary teeth is: AS, BS, CS, DS, ES, FS, GS, HS, IS, JS, KS, LS, MS, NS, OS, PS, QS, RS, SS and TS.

## 2.27 TMJ Device

Vermont Medicaid reimburses for TMJ Splints. Providers may bill for members receiving this device on the CMS-1500 or the ADA 2019 form. The TMJ Splint is not considered part of the annual adult maximum benefit. See Vermont Medicaid for Fee Schedule, <a href="http://www.vtmedicaid.com/#/feeSchedule">http://www.vtmedicaid.com/#/feeSchedule</a>

#### 2.28 Telemedicine

Vermont Medicaid is encouraging Medicaid-participating providers, including dentists, to utilize telemedicine for delivery of medically necessary and clinically appropriate services to Medicaid members when possible. For more information, see the DVHA website at:

https://dvha.vermont.gov/sites/dvha/files/documents/News/DVHA Telemedicine %26 Emergency Telephonic Coverage\_Dental Providers 04.10.2020.pdf

## 2.29 Unlisted Services

Some covered services may not be classified, or the classification may be difficult to determine. Providers may contact the Gainwell Provider Representatives at 800.925.1706 for assistance in determining the appropriate procedure code for billing.

## 2.30 Usual and Customary Charges

Various claim forms (CMS-1500, UB-04 and 837) require the submission of "Charge" or "Total Charges" or "Charge Amount" to be reported for each service billed. The provider's "usual and customary charge" or "uniform charge" is a dollar amount in effect at the time of the specific date of

service. This is the amount to be reported on the claim. This usual and customary charge is the amount that the provider bills to insured and private-pay persons for the same service. If the provider has more than one charge for a service, the lowest charge will be reported to Vermont Medicaid, except if the charge has been reduced on an individual basis because of a sliding-fee scale based on the patient's documented inability to pay. Sale prices should be used during the sale period. If a service or item is offered free-of-charge by the provider, no charge will be made to Vermont Medicaid. Providers may not discriminate against Vermont Medicaid members by charging a higher fee for the same service than that charged to a private-pay patient, except as noted above regarding sliding-fee scale.

When only a portion of a service is completed, the dentist is only allowed to bill for the services rendered and not the entire service procedure. Orthodontia and dentures should be billed on the date the procedures were started.

## 2.31 Recoupment

If a member, during active orthodontic treatment, leaves your practice after the reimbursement has been received by the provider, it is the provider's responsibility to contact their Gainwell representative to initiate the recoupment of funds for the remaining unfinished orthodontic treatment.

#### 2.32 Other Insurance

For members with Other Insurance (OI), please refer to:

- Health Care Administrative Rule (HCAR):
  - o <u>Current Medicaid Covered Servi</u>ces Policy 7100-7700.
  - Adapted Rules Covered Services Rule
- General Billing and Forms Manual

## **Section 3 Procedure Codes**

A list of procedure codes for covered dental services is available in Section 7 of this document and is on the DVHA website at <a href="https://dvha.vermont.gov/providers/dental">https://dvha.vermont.gov/providers/dental</a>. Also, the on-line HCPCS Fee Schedule includes the D code, name of the procedure, rate on file and coverage criteria, <a href="https://www.vermont.gov/providers/dental">Vermont Medicaid Portal (vtmedicaid.com)</a>. The procedure codes listed must be billed on the acceptable dental claim form.

Changes in the price on file will be reflected on the HCPCS Fee Schedule. The DVHA reserves the right to change the price on file for any item or service without prior notice. For these reasons, providers should be careful to retain the changes noted in the Remittance Advice and updated versions of the fee schedule. This file is for the convenience of the provider. Although the DVHA will attempt to keep the file 100% accurate, the actual price recorded in the computer system for reimbursement is the only accurate rate for the applicable date of service.

DVHA conducts code reviews on a quarterly or annual basis depending on the type of services that are being requested for consideration. Reviews are initiated when a written prior authorization (PA) request is received by DVHA from a Vermont Medicaid enrolled provider for any Vermont Medicaid member.

DVHA does not review requests for coverage of codes by a manufacturer, a manufacturer's representative, a Durable Medical Equipment vendor, or other third parties.

Refer to the Fee Schedule at <a href="https://dvha.vermont.gov/providers/codesfee-schedules">https://dvha.vermont.gov/providers/codesfee-schedules</a> for information about the code coverage and if the specific code in question, requires a prior authorization. Questions about this policy can be directed to the provider's assigned Gainwell Provider Services Representative.

# Section 4 General Program - (Covered Services for Members of All Ages. Additional Services for UNDER age of 21, See Section 5)

#### 4.1 Clinical Oral Evaluation

The codes in this section recognize the cognitive skills necessary for patient evaluation. The collection and recording of some data and components of the dental examination may be delegated; however, the evaluation, diagnosis and treatment planning are the responsibility of the dentist. As with all procedure codes, there is no distinction made between the evaluations provided by general practitioners and specialists.

Report additional diagnostic and/or definitive procedures separately.

#### **D0120 - Periodic Oral Evaluation**

An evaluation performed on a patient to determine any changes in the patient's dental and medical health status since a previous comprehensive or periodic evaluation. This includes an oral cancer evaluation, periodontal screening where indicated and may require interpretation of information acquired through additional diagnostic procedures. The findings are discussed with the patient.

Report additional diagnostic procedures separately.

#### D0140 - Limited Oral Evaluation - Problem Focused

An evaluation limited to a specific oral health problem or complaint. This may require interpretation of information acquired through additional diagnostic procedures. Definitive procedures may be required on the same day as this evaluation. Typically, patients receiving this type of evaluation present with a specific problem and/or dental emergencies, trauma, acute infections, etc.

## **D0150 - Comprehensive Oral Evaluation**

An evaluation used by a general dentist and/or a specialist when evaluating a patient comprehensively. This applies to new patients; established patients who have had a significant change in health conditions or other unusual circumstances, by report, or established patients who have been absent from active treatment for three or more years. It is a thorough evaluation and recording of the extraoral and intraoral hard and soft tissues. This includes an evaluation for oral cancer, the evaluation and recording of the patient's dental and medical history and a general health assessment. It may include the evaluation and recording of dental caries, missing or unerupted teeth, restorations, existing prostheses, occlusal relationships, periodontal conditions (including periodontal screening and/or charting), hard and soft tissue anomalies, etc.

#### D0170 - Re-evaluation - Limited, Problem Focused

Assessing the status of a previously existing condition. For example:

- A traumatic injury where no treatment was rendered but patient needs follow-up monitoring;
- Evaluation for undiagnosed continuing pain;
- Soft tissue lesion requiring follow-up evaluation.

This code is NOT to be used for a post-operative visit.

## 4.2 Radiographs

D0210 - Intraoral - Comprehensive series of radiographic images

D0220 - Intraoral - Periapical - First Radiographic Image

- D0230 Intraoral Periapical Each Additional Radiographic Image
- D0240 Intraoral Occlusal Radiographic Image
- D0250 Extra-oral 2D Projection Radiographic Image
- D0251 Extra-oral Posterior Dental Radiographic Image
- D0270 Bitewing Single Radiographic Image
- D0272 Bitewings 2 Radiographic Images
- D0273 Bitewings 3 Radiographic Images
- D0274 Bitewings 4 Radiographic Images
- D0330 Panoramic Radiographic Image
- D0364 Cone Beam CT Capture and Interpretation with Limited Field of View Less Than One Whole Jaw
- D0365 Cone Beam CT Capture and Interpretation with Limited Field of View of One Full Dental Arch Mandible
- DO366 Cone Beam CT Capture and Interpretation with Limited Field of View of One Full Dental Arch Maxilla, with or without Cranium
- DO367 Cone Beam CT Capture and Interpretation with Limited Field of View of Both Jaws, With or Without Cranium
- DO368 Cone Beam CT Capture and Interpretation for TMJ Series Including Two or More Exposures
- D0393 Treatment Simulation using 3D Image Volume

Vermont Medicaid will not pay for any usually covered procedures if that procedure was done to support a non-covered procedure. For example: A CT scan would not be covered if the reason for doing the scan was to plan the placement of an implant. As implants are not covered, the scan done to plan the implant is also not covered.

#### 4.3 Other Diagnostic Procedures

- D0470 Diagnostic Models
- **D0999 Unspecified Diagnostic Procedures**

#### 4.4 Preventive Treatment

#### D1110 - Prophylaxis - Adult

Removal of plaque, calculus and stains from the tooth structures and implants in the permanent (adult) and transitional dentition. It is intended to control local irritational factors. Normal cleanings are once every 6 months.

#### 4.5 Topical Fluoride Treatment

Prescription strength fluoride product designed solely for use in the dental office, delivered to the dentition under the general supervision of a dentist or physician. Fluoride must be applied separately from prophylaxis paste.

- D1206 Topical Fluoride Varnish; Therapeutic application for moderate to high caries risk patients
- D1208 Topical Application of Fluoride

#### 4.6 Other Preventive Services

#### D1320 - Tobacco Counseling for the Control and Prevention of Oral Disease

Tobacco prevention and cessation services reduce patient risks of developing tobacco-related oral diseases and conditions and improves prognosis for certain dental therapies.

#### D1354 - Application of Caries Arresting Medicament Application - Per Tooth

Silver Diamine Fluoride can be used to arrest caries in a cavitated tooth. Application techniques and protocols are available from the ADA and other sources. Because arrested caries does not then progress into the pulp, DVHA has elected to cover this procedure with several populations in mind, such as: young children who may be better able to tolerate routine procedures when a year or two older, adults who have reached their annual cap and wish to wait for the new year for additional treatment, special needs patients who have one cavity and wish to delay O.R. admission until other needs might arise, institutionalized patients for whom definitive treatment is unavailable or contraindicated.

Research suggests that one application is effective, but a second application about six months later results in increased control. Covering a silver diamine lesion with a glass ionomer temporary filling will also extend the effects of the caries control. With the above scenarios in mind, DVHA hopes to allow for better outcomes for our member clients and more options for our providers to deliver good care. It is not our expectation, however, to see routine placement of Silver Diamine on multiple teeth of every patient at the time of initial or periodic oral exams. DVHA now allows 4 per tooth per lifetime. If a provider sees a case legitimately in need of unusual treatment, please either use the Prior Authorization form or bill with copious documentation to describe caries patterns and clinical circumstances, photos, radiographs, etc. Other medicaments for this purpose may be identified in the future that could have different protocols but will still come under the D1354 code.

D1708 Pfizer-BioNTech Covid-19 vaccine administration-third dose SARSCOV2 Covid-19 Vac mRNA 30 mcg/0.3mL IM DOSE 3 (for members 12 years of age and older)

D1709 - Pfizer-BioNTech Covid-19 vaccine administration-booster dose SARSCOV2 Covid-19 Vac mRNA 30 mcg/0.3mL IM DOSE Booster (for members 12 years of age and older)

D1710 - Moderna Covid-19 vaccine administration-third dose SARSCOV2 Covid-19 Vac mRNA 100 mcg/0.5mL IM DOSE 3 (for members 18 years of age and older)

D1711 - Moderna Covid-19 vaccine administration-booster dose SARSCOV2 Covid-19 Vac mRNA 50 mcg/0.25mL IM dose booster (for members 18 years of age and older)

## 4.7 Restorative

Local anesthesia is a component of all restorative procedures.

It is understood that interproximal lesions are usually approached through the occlusal surface, so a mesial lesion seen only on x-ray could legitimately be billed as an MO (D2150, 2 surface). It is permissible to have a DO placed one day and an MO on the same tooth on another day within a twelve-month period. That is, the claim will not be rejected because the O surface was restored twice in the same year. We will know that an O in combination with an M or D is different from a free-standing O. Two isolated O's within 12 months is still rejected. Note also that an MODO is only a three-surface restoration.

Another example: If tooth #8 has a small mesial restoration placed and billed one day (D2330, one surface) but shortly thereafter the patient suffers a traumatic incident that fractures away the MI

corner of #8, if DVHA is billed for #8 MI (D2335, 4 surfaces including incisal edge), the claim will be denied. If, however, a note is included in the claim describing the circumstances, payment can be facilitated.

If an MO on #30 is followed by an MB billed within 12 months, the MB will be denied as the M surface had already been treated. A large cervical or buccal lesion is still one lesion even if it extends toward the mesial or distal of the tooth.

If there is some extraordinary circumstance that you can describe or document with x-rays, photo's, models or words, please submit these along with any claim that you believe might set off our "red flag" system. It will facilitate timely processing.

## 4.7.1 Amalgam Restorations

Tooth preparation, all adhesives (including amalgam bonding agents), liners and bases are included as part of the restoration. If pins are used, they should be reported separately (see D2951).

D2140 - Amalgam - One Surface, Primary or Permanent

D2150 - Amalgam - Two Surfaces, Primary or Permanent

D2160 - Amalgam - Three Surfaces, Primary or Permanent

D2161 - Amalgam - Four or more Surfaces, Primary or Permanent

#### 4.7.2 Resin-Based Restorations

Resin-based composite refers to a broad category of materials including but not limited to composites. May include bonded composite, light-cured composite, etc. Tooth preparation, etching, adhesives (including resin bonding agents), liners and bases and curing are included as part of the restoration. Glass ionomers, when used as restorations should be reported with these codes. If pins are used, they should be reported separately (see D2951).

D2330 - Resin-Based Composite - One Surface, Anterior

D2331 - Resin-Based Composite - Two Surfaces, Anterior

D2332 - Resin-Based Composite - Three Surfaces, Anterior

D2335 - Resin-Based Composite - Four or more Surfaces, Anterior

D2390 - Resin-Based Composite Crown, Anterior

D2391 - Resin-Based Composite - One Surface, Posterior

D2392 - Resin-Based Composite - Two Surfaces, Posterior

D2393 - Resin-Based Composite - Three Surfaces, Posterior

D2394 - Resin-Based Composite - Four or more Surfaces, Posterior

#### 4.7.3 Custom Crowns

D2920 - Re-cement Crown

#### 4.7.4 Prefabricated Crowns

D2928 - Prefabricated Porcelain/Ceramic Crown - Permanent Tooth

D2930 - Stainless Steel Crown - Primary

D2931 - Stainless Steel Crown - Permanent

#### D2932 - Prefabricated Resin Crown

#### D2933 - Prefabricated Stainless-Steel Crown with Resin Window

#### 4.8 Other Restorative Procedures

#### D2940 - Placement of Interim Direct Restorations

Direct placement of a temporary restorative material to protect tooth and/or tissue form. This procedure may be used to relieve pain, promote healing, or prevent further deterioration. Not to be used for endodontic access closure, or as a base or liner under a restoration.

#### D2950 - Core Build-up - Including Pins

Core build-up refers to building up of anatomical crown when restorative crown will be placed, whether pins are used. A material is placed in the tooth preparation for a crown when there is insufficient tooth strength and retention for the crown procedure.

D2951 - Pin Retention, Per Tooth

D2954 - Prefabricated Post and Core

D2981 - Inlay Repair Necessitated by Restorative Material Failure

D2982 - Onlay Repair Necessitated by Restorative Material Failure

D2983 - Veneer Repair Necessitated by Restorative Material Failure

#### 4.9 Endodontics

Local anesthesia is a component of all endodontic procedures.

#### 4.9.1 Pulpotomy

#### D3220 - Therapeutic Pulpotomy (Excluding final restoration)

Removal of pulp coronal to the dentinocemental junction and application of medicament. Pulpotomy is the surgical removal of a portion of the pulp with the aim of maintaining the vitality of the remaining portion by means of an adequate dressing.

#### D3221 - Pulpal Debridement, primary and permanent teeth

Pulpal debridement for the relief of acute pain prior to conventional root canal therapy. This procedure is not to be used when endodontic treatment is completed on the same day.

#### 4.9.2 Endodontic Therapy for Primary Teeth

D3230 - Pulpal Therapy (resorbable filling), Anterior Primary Tooth

D3240 - Pulpal Therapy (resorbable filling), Posterior Primary Tooth

## 4.9.3 Endodontic Therapy

Regardless of the funding source for the initial endodontic procedure, endodontic retreatment is not a covered service.

D3310 - Anterior (Excluding Final Restoration)

D3320 - Bicuspid (Excluding Final Restoration)

D3330 - Molar (Excluding Final Restoration)

## 4.9.4 Apicoectomy/Periradicular Surgery

D3410 - Apicoectomy/Periradicular Surgery, Anterior

D3421 - Apicoectomy/Periradicular Surgery, Bicuspid (First Root)

For surgery on one root of a bicuspid. Does not include placement of retrograde filling material. If more than one root is treated, see D3426.

D3425 - Apicoectomy/Periradicular Surgery, Molar (First Root)

D3426 - Apicoectomy/Periradicular Surgery, Each Additional Root

Typically used for bicuspids and molar surgeries when more than one root is treated during the same procedure. This does not include retrograde filling material placement.

D3430 - Retrograde Filling - Per Root

D3471 - Surgical repair of root resorption - anterior

D3472 - Surgical repair of root resorption - premolar

D3473 - Surgical repair of root resorption - molar

D3450 - Root Amputation - Per Root

D3501 – Surgical exposure of root surface without apicoectomy or repair of root resorption – anterior

D3502 – Surgical exposure of root surface without apicoectomy or repair of root resorption – premolar

D3503 - Surgical exposure of root surface without apicoectomy or repair of root resorption - molar

#### 4.10 Periodontics

Local anesthesia is a component of all periodontal procedures.

## 4.10.1 Surgical Services (10 Day Global)

D4212 - Gingivectomy or Gingivoplasty to allow access for Restorative Procedure - Per Tooth

D4322 - Splint - Intra-coronal; Natural Teeth or Prosthetic Crowns (1/1/2022)

Additional procedure that physically links individual teeth or prosthetic crowns to provide stabilization and additional strength.

D4323 - Splint - Extra-coronal; Natural Teeth or Prosthetic Crowns (1/1/2022)

Additional procedure that physically links individual teeth or prosthetic crowns to provide stabilization and additional strength.

D4341 - Periodontal Scaling and Root Planing

D4342 - Periodontal Scaling and Root Planing, One to Three Teeth per Quadrant

Periodontal scaling and root planing is limited to 4 quadrants per patient per year. If more frequent scaling and root planing is required, use the Dental Services Prior Request Form to submit a prior authorization request to DVHA documenting the need for the additional scaling and root planing.

D4346 - Scaling in Presence of Generalized Moderate or Severe Gingival Inflammation, Full Mouth, After Oral Evaluation

# D4355 - Full Mouth Debridement to Enable a Comprehensive Periodontal Evaluation and Diagnosis on a Subsequent Visit

The gross removal of plaque and calculus that interfere with the ability of the dentist to perform a comprehensive oral evaluation. This preliminary procedure does not preclude the need for additional procedures.

#### 4.10.2 Other Periodontal Services

#### D4910 - Periodontal Maintenance

This procedure is instituted following periodontal therapy and continues at varying levels, determined by the clinical evaluation by the dentist. It includes removal of the bacterial plaque and calculus from supragingival and subgingival regions, site specific scaling and root planing where indicated, and polishing the teeth.

This procedure is performed rather than a prophylaxis for patients following periodontal therapy.

Local anesthesia is a component of all periodontal procedures.

#### 4.11 Removable Prosthodontics

When submitting for payment of prior authorized denture(s), use the start date (final impression date) as the date of service on the completed claim form. Do not submit the claim until the denture(s) are delivered.

Reimbursement includes all necessary post-delivery denture adjustments for 3 months.

Regardless of the funding source, dentures are limited to 1 per arch per 5 years. However, replacement denture(s) will be considered in less than 5 years in the following circumstances:

- The previous denture(s) have been stolen or destroyed in an accident and a police report has been filed.
- The previous denture(s) have been destroyed in a fire and a fire report has been filed.
- There are other equally compelling circumstances beyond the recipient's control.

Dentures will not be prior authorized if existing dentures are serviceable.

#### 4.11.1 Denture Adjustments

D5410 - Adjust Complete Denture - Maxillary

D5411 - Adjust Complete Denture – Mandibular

D5421 - Adjust Partial Denture - Maxillary

D5422 - Adjust Partial Denture - Mandibular

#### 4.11.2 Other Removable Prosthetic Services

D5850 - Tissue Conditioning - Maxillary

D5851 - Tissue Conditioning - Mandibular

D5992 - Adjust Maxillofacial Prosthetic appliance, by report

D9932 - Cleaning and Inspection of Removable Complete Denture, Maxillary

D9933 - Cleaning and Inspection of Removable Complete Denture, Mandibular

D9934 - Cleaning and Inspection of Removable Partial Denture, Maxillary

#### D9935 - Cleaning and Inspection of Removable Partial Denture, Mandibular

#### 4.12 Fixed Prosthodontics

Local anesthesia is a component of all fixed prosthodontic procedures.

## 4.12.1 Implant Services

D6081 - Scaling and Debridement of a Single Implant in the Presence of Mucositis, including Inflammation, Bleeding upon Probing and Increased Socket Depths; includes Cleaning of the Implant Surface, Without Flap Entry and Closure

D6101 - Debridement of a Peri-implant Defect and Surface Cleaning of Exposed Implant Surfaces, including Flap Entry and Closure

D6102 - Debridement and Osseous Contouring of a Peri-implant Defect, Includes Surface Cleaning of Exposed Implant Surfaces and Flap Entry and Closure

D6103 - Bone Graft for Repair of Peri-implant Defect - Not Including Flap Entry and Closure

#### 4.12.2 Other Prosthodontic Services

D6930 - Re-cement Bridge

## 4.13 Oral and Maxillofacial Surgery

Local anesthesia is a component of all oral and maxillofacial procedures.

#### 4.13.1 Extractions

Includes local anesthesia, suturing if needed, and routine post-operative care.

D7111 - Extraction, Coronal Remnants - Deciduous Tooth Removal of Soft Tissue - retained Coronal Remnants.

D7140 - Extraction, Erupted Tooth or Exposed Root (elevation and/or forceps removal)

#### 4.13.2 Surgical Extractions

Includes local anesthesia, suturing if needed, and routine post-operative care.

D7210 - Extraction of Erupted Tooth Requiring Elevation of Mucoperiosteal flap

D7220 - Removal of Impacted Tooth - Soft Tissue

D7230 - Removal of Impacted Tooth - Partially Bony

D7240 - Removal of Impacted Tooth - Completely Bony

D7241 - Removal of Impacted Tooth - Completely Bony, with Unusual Surgical Complications

D7250 - Removal of Residual Tooth Roots (cutting procedure)

D7251 - Coronectomy - Intentional Partial Tooth Removal

#### 4.13.3 Other Surgical Procedures/Splints

D7260 - Oral Antral Fistula Closure

D7261 - Primary Closure of a Sinus Perforation

D7270 - Tooth Reimplantation and/or Stabilization of Accidentally Evulsed or Displaced Tooth, Includes Splinting and/or Stabilization.

- D7284 Excisional Biopsy of Minor Salivary Glands
- D7285 Incisional Biopsy of Oral Tissue Hard (bone tooth)
- D7286 Incisional Biopsy of Oral Tissue Soft
- D7290 Surgical Repositioning of Teeth
- D7291 Transseptal Fiberotomy/Supra Crestal Fiberotomy, by report
- D7295 Harvest of Bone for use in Autogenous Grafting Procedure
- D7310 Alveoloplasty in Conjunction with Extractions, Four or more Teeth or Tooth Spaces, per Quadrant
- D7311 Alveoloplasty in Conjunction with Extractions, One to three Teeth, per Quadrant
- D7320 Alveoloplasty not in Conjunction with Extractions, Four or more Teeth or Tooth Spaces, per Quadrant
- D7321 Alveoloplasty not in Conjunction with Extractions, One to three Teeth or Tooth Spaces, per Quadrant
- D7340 Vestibuloplasty Ridge Extension, Secondary Epithelialization
- D7350 Vestibuloplasty Ridge Extension (including soft tissue grafts, muscle reattachments, revision of soft tissue attachment, and management of hypertrophied and hyperplastic tissue)
- D7410 Excision of Benign Lesion up to 1.25 cm
- D7411 Excision of Benign Lesion greater than 1.25 cm
- D7412 Excision of Benign Lesion, Complicated
- D7413 Excision of Malignant Lesion up to 1.25 cm
- D7414 Excision of Malignant Lesion greater than 1.25 cm
- D7415 Excision of Malignant Lesion, Complicated
- D7440 Excision of Malignant Tumor Lesion Diameter up to 1.25 cm
- D7441 Excision of Malignant Tumor Lesion diameter greater than 1.25 cm
- D7450 Removal of Benign Odontogenic Cyst or Tumor Lesion diameter up to 1.25 cm
- D7451 Removal of Benign Odontogenic Cyst or Tumor Lesion diameter greater than 1.25 cm
- D7460 Removal of Benign Nonodontogenic Cyst or Tumor Lesion diameter up to 1.25 cm
- D7461 Removal of Benign Nonodontogenic Cyst or Tumor Lesion diameter greater than 1.25 cm
- D7465 Destruction of Lesion(s) by Physical or Chemical Methods, by report
- D7471 Removal of Lateral Exostosis (maxilla or mandible)
- D7472 Removal of Torus Palatinus
- D7473 Removal of Torus Mandibularis
- D7485 Surgical Reduction of Osseous Tuberosity
- D7510 Incision and Drainage of Abscess Intraoral Soft Tissue

Incision and drainage of abscess requires the appropriate tooth number to be referenced on the claim form.

- D7560 Maxillary Sinusotomy for Removal of Tooth Fragment or Foreign Body
- D7880 Occlusal Orthotic Appliance (TMJ Splint)
- D7881 Occlusal Orthotic Device Adjustment
- D7910 Suture of recent Small Wounds, up to 5 cm
- D7911 Complicated Suture, up to 5 cm
- D7912 Complicated Suture, greater than 5 cm
- D7922 Placement of Intra-Socket Biological Dressing to Aid in Hemostasis or Clot Stabilization, Per Site
- D7962 Lingual Frenectomy (frenulectomy)
- D7972 Surgical Reduction of Fibrous Tuberosity

## 4.14 Adjunctive General Services

D9110 - Palliative Treatment of Dental Pain - per Visit

Treatment that relieves pain but is not curative; services provided do not have distinct procedure codes.

#### 4.14.1 Anesthesia

- D9222 Deep Sedation/General Anesthesia first 15-minutes
- D9223 Deep Sedation/General Anesthesia each 15-minute increment
- D9230 Inhalation of Nitrous Oxide/Analgesia, Anxiolysis
- D9239 Intravenous Moderate (conscious) Sedation/Analgesia first 15 minutes
- D9243 Intravenous Moderate (conscious) Sedation/Analgesia each 15-minute increment
- D9248 Non-intravenous Conscious Sedation

Oral conscious sedation with central nervous system depressants which causes a moderately depressed level of consciousness. This does not include written prescriptions, mild sedatives and/or nitrous oxide sedation. Anesthesia time begins when the doctor administering the anesthetic agent initiates the appropriate anesthesia and non-invasive monitoring protocol and remains in continuous attendance of the patient. Anesthesia services are considered completed when the patient may be safely left under the observation of trained personnel and the doctor may safely leave the room to attend to other patients or duties. The level of anesthesia is determined by the anesthesia provider's documentation of the anesthetics effects upon the central nervous system and not dependent upon the route of administration.

#### 4.14.2 Professional Visits

D9310 - Consultation Diagnostic service provided by Dentist other than requesting Dentist

D9420 - Hospital Call

## 4.14.3 Patient Management

#### **D9920 - Behavior Management**

Behavior management cannot be billed when one of the above methods of anesthesia is billed on the same date of service. If a provider feels strongly that a case had unusual or exceptional circumstances that should allow a combination of these codes, then a written report of those circumstances will be required, submitted on a paper billing form for review and possible payments.

## 4.14.4 Occlusal Therapy

D9942 - Repair and/or Reline Occlusal Guard

D9943 - Occlusal Guard Adjustment

D9944 - Occlusal Guard - hard appliance, full arch (Replaces D9940 Occlusal Guard)

D9945 - Occlusal Guard - soft appliance, full arch (Replaces D9940 Occlusal Guard)

D9946 - Occlusal Guard - hard appliance, partial arch (Replaces D9940 Occlusal Guard)

A removable dental appliance which is designed to minimize the effects of bruxism and other occlusal factors.

**D9986 - Missed Appointment** 

**D9987 - Cancelled Appointment** 

## 4.14.5 Interpreter Services

T1013 - Interpreter Services - 15 minutes

## Section 5 Additional Children's Program (UNDER age of 21)

Children also have access to all the codes under the General Program, as listed above.

#### 5.1 Clinical Oral Evaluations

# D0145 - Oral Evaluation for a Patient under Three Years of Age and Counseling with Primary Caregiver

Diagnostic and preventive services performed for a child under the age of three, preferably within the first six months of the eruption of the first primary tooth, including recording the oral and physical health history, evaluation of caries susceptibility, development of an appropriate preventive oral health regimen and communication with and counseling of the child's parent, legal guardian and/or primary caregiver.

The reimbursement for procedure code D0145 includes all anticipatory guidance provided to the family, including oral hygiene instructions. Note that you cannot bill for oral hygiene instructions (procedure code D1330) on the same date of service as procedure code D0145.

## **5.2** Radiographs

## D0340 - Cephalometric Radiographic Image

#### D0350 - Oral/Facial Photographic Image Obtained Intraorally or Extraorally

D0350 is intended to be used strictly for Orthodontic documentation. Therefore, the use of code D0350 is limited to Orthodontic purposes only.

This includes photographic images, including those obtained by intraoral and extraoral cameras, excluding radiographic images. These photographic images should be part of the patient's clinic record.

DO391 - Interpretation of Diagnostic Image by a Practitioner Not Associated with Capture of the Image, Including the Report

#### 5.3 Preventive Treatment

## D1120 - Prophylaxis - Child

Removal of plaque, calculus and stains from tooth structures and implants in the primary (deciduous) and transitional dentition. It is intended to control local irritational factors.

Normal cleanings are every six months.

#### Definitions:

- Primary (Deciduous) Dentition: Teeth developed and erupted first in order of time.
- Transitional Dentition: The final phase of the transition from primary to adult teeth, in which
  the deciduous molars and canines are in the process of shedding and the permanent
  successors are emerging.
- Permanent (Adult) Dentition: The dentition that is present after the cessation of growth.

#### 5.4 Other Preventive Services

## D1330 - Oral Hygiene Instructions

D1351 - Sealant - Per Tooth, Limited to Permanent First and Second Molars

D1351 U9 - Sealant – Per Tooth-Deciduous, First and Second Molars, Bicuspids and Anterior Teeth with Deep Pits and Fissures

When submitting claims for the placement of sealants on deciduous molars, bicuspids and anterior teeth you must add the "U9" modifier to the end of procedure code D1351. For example, when submitting for a sealant placed on tooth #28, use procedure code D1351U9.

The surfaces eligible for sealants are limited to Occlusal (O), Buccal (B), Occlusal-Buccal (OB) and Occlusal-Lingual (OL) as well as any deep pits and fissures on anterior teeth.

D1352 - Preventive Resin Restoration in a Moderate to High Caries Risk Patient - Permanent Tooth

D1708 - Pfizer-BioNTech Covid-19 vaccine administration-third dose SARSCOV2 Covid-19 Vac mRNA 30 mcg/0.3mL IM DOSE 3 (for members 12 years of age and older)

D1709 - Pfizer-BioNTech Covid-19 vaccine administration-booster dose SARSCOV2 Covid-19 Vac mRNA 30 mcg/0.3mL IM DOSE Booster (for members 12 years of age and older)

D1710 - Moderna Covid-19 vaccine administration-third dose SARSCOV2 Covid-19 Vac mRNA 100 mcg/0.5mL IM DOSE 3 (for members 18 years of age and older)

D1711 - Moderna Covid-19 vaccine administration-booster dose SARSCOV2 Covid-19 Vac mRNA 50 mcg/0.25mL IM dose booster (for members 18 years of age and older)

D1712 - Janssen Covid-19 vaccine administration-booster dose SARSCOV2 Covid-19 VAC Ad26 5x1010 VP/.5mLIM DOSE BOOSTER (for members 18 years of age and older)

D1713 - Pfizer-BioNTech Covid-19 vaccine administration tris-sucrose pediatric first dose SARSCOV2 COVID-19 VAC mRNA 10 mcg/0.2 tris-sucrose IM DOSE 1 (for members 5 years of age through 11 years of age)

D1714 - Pfizer-BioNTech Covid-19 vaccine administration tris-sucrose pediatric second dose SARSCOV2 COVID-19 VAC mRNA 10 mcg/0.2 tris-sucrose IM DOSE 2 (for members 5 years of age through 11 years of age)

#### 5.4.1 Space Maintenance

D1510 - Space Maintainer - Fixed - Unilateral - Per Quadrant

D1516 - Space Maintainer - fixed - bilateral, maxillary

(Replaces D1515 - Space Maintainer – fixed, bilateral)

D1517 - Space Maintainer - fixed - bilateral, mandibular

(Replaces D1515 - Space Maintainer - fixed, bilateral)

D1526 - Space Maintainer - removable - bilateral, maxillary

(Replaces D1525 - Space Maintainer - removable - bilateral)

D1527 - Space Maintainer - removable - bilateral, mandibular

(Replaces D1525 - Space Maintainer - removable - bilateral)

D1551 - Re-Cement or Re-Bond Bilateral Space Maintainer - maxillary

D1552 - Re-Cement or Re-Bond Bilateral Space Maintainer - mandibular

D1553 - Re-Cement or Re-Bond Bilateral Space Maintainer - Per Quadrant

D1575 - Distal Shoe Space Maintainer - Fixed - Unilateral - Per Quadrant

#### 5.4.2 Custom Crowns

D2720 - Crown - Resin to High Noble Metal

D2740 - Crown - Porcelain/Ceramic substrate

D2750 - Crown - Porcelain to High Noble

D2751 - Crown - Porcelain to Base Metal

D2752 - Crown - Porcelain to Noble Metal

D2753 - Crown - Porcelain Fused to Titanium and Titanium Alloys

D2790 - Crown - Full Cast High Noble Metal

D2791 - Crown - Full Cast Base Metal

D2792 - Crown - Full Cast Noble Metal

#### 5.5 Other Restorative Procedures

D2952 - Post and Core in Addition to Crown, Indirectly Fabricated

Post and core are custom fabricated as a single unit.

D2960 - Labial Veneer (Resin Laminate) - Direct

D2980 - Crown Repair, by report

D2999 - Unspecified Restorative Procedure, by report

#### 5.5.1 Apexification/Recalcification Procedures

D3351 - Apexification/Recalcification - Initial Visit

D3352 - Apexification/Recalcification - Interim Medication Placement

D3353 - Apexification/Recalcification - Final Visit

#### 5.5.2 Apexification/Recalcification Procedures

D3355 - Pulpal Regeneration - Initial Visit (if <16)

D3356 - Pulpal Regeneration - Interim Medication Replacement (if <16)

D3357 - Pulpal Regeneration - Completion of Treatment (if <16)

#### 5.6 Other Endodontic Procedures

D3910 - Surgical Procedure for Isolation of Tooth with Rubber Dam

D3920 - Hemisection (Including any Root Removal Not Including Root Canal Therapy)

D3999 - Unspecified Endodontic Procedure, by report

#### 5.7 Periodontics

Local anesthesia is a component of all periodontal procedures.

## 5.7.1 Surgical Services

D4210 - Gingivectomy or Gingivoplasty, Four or more Contiguous Teeth or Bounded Teeth Spaces, per Quadrant

D4211 - Gingivectomy or Gingivoplasty, One to three Contiguous Teeth or Bounded Teeth Spaces, per Quadrant

D4240 - Gingival Flap Procedure, Including Root Planning – Four or more Contiguous Teeth or Bounded Teeth Spaces, per Quadrant

D4241 - Gingival Flap Procedure, Including Root Planing – One to three Contiguous Teeth or Bounded Teeth Spaces, per Quadrant

D4249 - Clinical Crown Lengthening-Hard Tissue

D4260 - Osseous Surgery (including elevation of a full thickness flap entry and closure) - Four or more Teeth, per Quadrant

D4261 - Osseous Surgery (including elevation of a full thickness flap entry and closure) - One to three Teeth, per Quadrant

D4263 - Bone replacement graft- retained natural tooth

D4270 - Pedicle Soft Tissue Graft Procedure

D4277 - Free Soft Tissue Graft Procedure (including donor site surgery), First Tooth or Edentulous Tooth Position in Graft

D4278 - Free Soft Tissue Graft Procedure (including donor site surgery), Each Additional Tooth or Edentulous Tooth position in same Graft Site

D4999 - Unspecified Periodontal Procedure, by report

#### 5.8 Removable Prosthodontics

#### 5.8.1 Complete Dentures, Immediate Dentures and Overdentures

**D5110 - Complete Denture - Maxillary** 

D5120 - Complete Denture - Mandibular

D5130 - Immediate Denture - Maxillary

D5140 - Immediate Denture - Mandibular

#### 5.8.2 Partial Dentures

D5211 - Maxillary Partial Denture - Resin Base

D5212 - Mandibular Partial Denture - Resin Base

D5213 - Maxillary Partial Denture - Cast Framework

D5214 - Mandibular Partial Denture - Cast Framework

D5225 - Maxillary Partial Denture - Flexible Base (including retentive/clasping materials, rests, and teeth)

D5226 - Mandibular Partial Denture - Flexible Base (including retentive/clasping materials, rests, and teeth)

#### 5.8.3 Denture Repairs

- D5511 Repair Broken Complete Denture Base Mandibular
- D5512 Repair Broken Complete Denture Base Maxillary
- D5520 Repair Missing or Broken Teeth Complete Denture Per Tooth
- D5611 Repair Resin Denture Base Mandibular
- D5612 Repair Resin Denture Base Maxillary
- D5621 Repair Cast Framework, Partial Mandibular
- D5622 Repair Cast Framework, Partial Maxillary
- D5630 Repair or Replace Broken Clasp Partial Denture per Tooth
- D5640 Replace Missing or Broken Teeth Partial Denture per Tooth
- D5650 Add Tooth to Existing Partial Denture per Tooth
- D5660 Add Clasp to Existing Partial Denture per Tooth

#### 5.8.4 Denture Rebases

- D5710 Rebase Complete Maxillary Denture (Laboratory)
- D5711 Rebase Complete Mandibular Denture (Laboratory)
- D5720 Rebase Maxillary Partial Denture (Laboratory)
- D5721 Rebase Mandibular Partial Denture (Laboratory)

#### 5.8.5 Denture Relines

- **D5750 Reline Complete Maxillary Denture (Indirect)**
- D5751 Reline Complete Mandibular Denture (Indirect)
- D5760 Reline Maxillary Partial Denture (Indirect)
- D5761 Reline Mandibular Partial Denture (Indirect)

#### 5.8.6 Interim Prosthesis

- D5820 Interim partial denture (Including retentive/clasping materials, rests, and teeth), maxillary
- D5821 Interim partial denture (Including retentive/clasping materials, rests, and teeth), mandibular

#### 5.8.7 Other Removable Prosthetic Services

- D5863 Overdenture Complete Maxillary
- D5864 Overdenture Partial Maxillary
- D5865 Overdenture Complete Mandibular
- D5866 Overdenture Partial Mandibular
- D5899 Unspecified Removable Prosthodontic Procedure, by report

#### **5.9** Fixed Prosthodontics

Local anesthesia is a component of all fixed prosthodontic procedures.

#### 5.9.1 Fixed Partial Denture Pontics

D6055 - Connecting Bar - Implant Supported or Abutment Supported

D6210 - Pontic - Cast High Noble Metal

D6211 - Pontic - Cast Predominantly Base Metal

D6212 - Pontic - Cast Noble Metal

D6240 - Pontic - Porcelain Fused to High Noble Metal

D6241 - Pontic - Porcelain Fused to Predominantly Base Metal

D6242 - Pontic - Porcelain Fused to Noble Metal

D6243 - Pontic - Porcelain Fused to Titanium and Titanium Alloys

D6250 - Pontic - Resin with High Noble Metal

D6251 - Pontic - Resin with Predominantly Base Metal

D6252 - Pontic - Resin with Noble Metal

D6545 - Cast Metal Retainer for Acid Etched Bridge

#### 5.9.2 Fixed Partial Denture Retainers – Crowns

D6750 - Crown - Porcelain Fused to High Noble Metal

D6751 - Crown - Porcelain Fused to Base Metal

D6752 - Crown - Porcelain Fused to Noble Metal

D6753 - Retainer Crown - Porcelain Fused to Titanium and Titanium Alloys

D6790 - Crown - Full Cast High Noble Metal

D6791 - Crown - Full Cast Base Metal

D6792 - Crown - Full Cast Noble Metal

#### 5.9.3 Other Prosthodontic Services

D6980 - Bridge Repair, by report

D6985 - Pediatric Partial Denture, fixed

Reimbursement includes all necessary post-delivery denture adjustments for 3 months.

D6999 - Unspecified Fixed Prosthodontic Procedure, by report

#### 5.10 Oral and Maxillofacial surgery

D7280 - Exposure of an Unerupted Tooth

D7282 - Mobilization of Erupted or Malpositioned Tooth to Aid Eruption to Move/Luxate Teeth to Eliminate Ankylosis, not in Conjunction with an Extraction

D7283 - Placement of Device to Facilitate Eruption of Impacted Tooth

D7610 to D7680 - Fracture of Bones of the Facial Structures

D7810 to D7877 - Related to Temporomandibular Joint Problems

D7899 - Related to Temporomandibular Joint Problems

D7961 - Buccal/labial frenectomy (frenulectomy)

D7971 - Excision of Pericoronal Gingiva

## 5.10.1 Miscellaneous Surgical Procedures

D7999 - Unspecified Surgical Procedure, by report

#### 5.11 Orthodontics

#### **Definitions:**

Primary (Deciduous) Dentition: Teeth developed and erupted first in order of time.

Transitional Dentition: The final phase of the transition from primary to adult teeth, in which the deciduous molars and canines are in the process of shedding and the permanent successors are emerging.

Adolescent Dentition: The dentition that is present after the normal loss of primary teeth and prior to cessation of growth that would affect orthodontic treatment.

Adult (Permanent) Dentition: The dentition that is present after the cessation of growth that would affect orthodontic treatment.

Reimbursement for orthodontic treatment includes all necessary maintenance to and replacement of brackets and wires.

When submitting for payment of prior authorized orthodontic appliances, please place a "U" to indicate upper and an "L" to indicate lower in the "surface" section of the claim form.

## 5.11.1 Limited Orthodontic Treatment - (See new Prior Authorization Form)

D8010 - Limited Orthodontic Treatment of the Primary Dentition

D8020 - Limited Orthodontic Treatment of the Transitional Dentition

D8030 - Limited Orthodontic Treatment of the Adolescent Dentition

D8040 - Limited Orthodontic Treatment of the Adult Dentition

#### 5.11.2 Comprehensive Orthodontic Treatment - (See new Prior Authorization Form)

D8070 - Comprehensive Orthodontic Treatment of the Transitional Dentition

D8080 - Comprehensive Orthodontic Treatment of the Adolescent Dentition

D8090 - Comprehensive Orthodontic Treatment of the Adult Dentition

## 5.11.3 Treatment to Control Harmful Habits - (See new Prior Authorization Form)

D8210 - Removable Appliance Therapy

**D8220 - Fixed Appliance Therapy** 

#### 5.11.4 Other Orthodontic Services

D8695 - Removal of Fixed Orthodontic Appliances for Reasons other than Completion of Treatment

D8698 - Re-Cement or Re-Bond Fixed Retainer - Maxillary

D8699 - Re-Cement or Re-Bond Fixed Retainer - Mandibular

D8701 - Repair of Fixed Retainer, Includes Reattachment - Maxillary

D8702 - Repair of Fixed Retainer, Includes Reattachment - Mandibular

D8703 - Replacement of Lost or Broken Retainer - Maxillary

D8704 - Replacement of Lost or Broken Retainer - Mandibular

D8999 - Unspecified Orthodontic Procedure, by report

#### **5.12** Adjunctive General Services

## 5.12.1 Occlusal Therapy

D9950 - Occlusal Analysis - Mounted Case

D9951 - Occlusal Adjustment - Limited

D9952 - Occlusal Adjustment - Complete

#### 5.12.2 Miscellaneous Services

D9974 - Internal Bleaching - Per Tooth

## 5.12.3 Unspecified Care

D9999 - Unspecified Adjunctive Procedure, by report

## Section 6 2019 ADA Dental Claim Form

All information on the 2019 dental claim forms should be typed or legibly printed. For more information/instructions about the 2019 Dental Claim Forms, see the dental resources available on the Vermont Medicaid Portal.

## **Section 7 Dental Covered Services**

For information/instructions about code reimbursement rates and if a PA is required, visit the Fee Schedule on the Vermont Medicaid Portal: https://vtmedicaid.com/#/feeSchedule.

All medically necessary dental services are covered for Medicaid members under age 21 according to EPSDT. Coverage and service limits do not apply, and any published limits can be exceeded when medically necessary. Some services may require prior authorization. See Health Care Administrative Rule 4.106 titled "Early and Periodic Screening, Diagnostic and Treatment (EPSDT) Services"

PA is not required for additional services. Providers must maintain documentation that additional services are medically necessary.

All codes are covered during pregnancy and for 12 months after pregnancy ends (including all medically necessary codes listed as N for the Adult Program).

See other updates/exceptions for the Adult Program in Sections 2.1.2 and 2.1.3 relating to Emergency Services and Waiver Program Services.

## Section 8 Procedure Codes that Require Area of Oral Cavity

| Code  | Procedure Description   |
|-------|---|
| D0364 | Cone Beam CT Capture and Interpretation with Limited Field of View - Less Than One Whole Jaw  |
| D1510 | Space Maintainer - Fixed - Unilateral - Per Quadrant  |
| D1553 | Recement or Rebond Unilateral Space Maintainer – Per Quadrant   |
| D4210 | Gingivectomy or Gingivoplasty, Four or more Contiguous Teeth or Bounded Teeth Spaces, per Quadrant  |
| D4211 | Gingivectomy or Gingivoplasty, One to three Contiguous Teeth or Bounded Teeth Spaces, per Quadrant  |
| D4240 | Gingival Flap Procedure, Including Root Planing – Four or more Contiguous Teeth or Bounded Teeth Spaces, per<br>Quadrant  |
| D4241 | Gingival Flap Procedure, Including Root Planing - One to three contiguous teeth or bounded teeth spaces, per quadrant   |
| D4260 | Osseous Surgery (including elevation of a full thickness flap entry and closure) - four or more teeth per quadrant  |
| D4261 | Osseous Surgery (including elevation of a full thickness flap entry and closure) - one to three teeth per quadrant  |
| D4270 | Pedicle Soft Tissue Graft Procedure   |
| D4277 | Free Soft Tissue Graft Procedure (including recipient and donor sites surgery), First Tooth Site  |
| D4278 | Free Soft Tissue Graft, Each Additional Contiguous Tooth in same Graft Site   |
| D4341 | Periodontal Scaling and Root Planing Four or more contiguous teeth per Quadrant   |
| D4342 | Periodontal Scaling and Root Planing One to three teeth, per Quadrant   |
| D5899 | Unspecified Removable Prosthodontic Procedure, by report  |
| D7260 | Oral Antral Fistula Closure   |
| D7261 | Primary Closure of a Sinus Perforation  |
| D7285 | Incisional Biopsy of Oral Tissue - Hard (bone tooth)  |
| D7286 | Incisional Biopsy of Oral Tissue - Soft   |
| D7291 | Transseptal Fiberotomy/supra crestal Fiberotomy, by report  |
| D7295 | Harvest of Bone for use in Autogenous Grafting Procedure  |
| D7310 | Alveoloplasty in Conjunction with Extractions, Four or more Teeth or Tooth Spaces, per Quadrant   |
| D7311 | Alveoloplasty in Conjunction with Extractions, One to three Teeth, per Quadrant   |
| D7320 | Alveoloplasty not in Conjunction with Extractions, Four or more Teeth or Tooth Spaces, per Quadrant   |
| D7321 | Alveoloplasty not in Conjunction with Extractions, One to Three or Tooth Spaces, per Quadrant   |
| D7340 | Vestibuloplasty - Ridge Extension, Secondary Epithelialization  |
| D7350 | Vestibuloplasty - Ridge Extension (including soft tissue grafts, muscle reattachments, revision of soft tissue attachment, and management of hypertrophied and hyperplastic tissue) |
| D7410 | Excision of Benign Lesion up to 1.25 cm   |
| D7411 | Excision of Benign Lesion greater than 1.25 cm  |
| D7412 | Excision of Benign Lesion, Complicated  |
| D7413 | Excision of Malignant Lesion up to 1.25 cm  |
| D7414 | Excision of Malignant Lesion greater than 1.25 cm   |

| Code  | Procedure Description   |
|-------|---|
| D7415 | Excision of Malignant Lesion, Complicated   |
| D7440 | Excision of Malignant Tumor – Lesion Diameter up to 1.25 cm                           |
| D7441 | Excision of Malignant Tumor – Lesion diameter greater than 1.25 cm                    |
| D7450 | Removal of Benign Odontogenic Cyst or Tumor - Lesion diameter up to 1.25 cm           |
| D7451 | Removal of Benign Odontogenic Cyst or Tumor - Lesion diameter greater than 1.25 cm    |
| D7460 | Removal of Benign Nonodontogenic Cyst or Tumor - Lesion diameter up to 1.25 cm        |
| D7461 | Removal of Benign Nonodontogenic Cyst or Tumor - Lesion diameter greater than 1.25 cm |
| D7465 | Destruction of Lesion(s) by Physical or Chemical Methods, by report                   |
| D7471 | Removal of Lateral Exostosis (maxilla or mandible)                                    |
| D7473 | Removal of Torus Mandibularis   |
| D7485 | Surgical Reduction of Osseous Tuberosity  |
| D7510 | Incision and Drainage of Abscess - Intraoral Soft Tissue                              |
| D7560 | Maxillary Sinusotomy for Removal of Tooth Fragment or Foreign Body                    |
| D7910 | Suture of recent Small Wounds, up to 5 cm   |
| D7911 | Complicated Suture, up to 5 cm  |
| D7912 | Complicated Suture, greater than 5 cm   |
| D7961 | Buccal/Labial Frenectomy  |
| D7962 | Lingual Frenectomy  |
| D7971 | Excision of Pericoronal Gingiva   |
| D7972 | Surgical Reduction of Fibrous Tuberosity  |
| D7999 | Unspecified Surgical Procedure, by report   |
| D8210 | Removable Appliance Therapy   |
| D8220 | Fixed Appliance Therapy   |
| D8999 | Unspecified Orthodontic Procedure, by report  |
| D9110 | Palliative (Emergency) Treatment of Dental Pain                                       |
| D9944 | Occlusal Guard - Hard Appliance, Full Arch  |
| D9945 | Occlusal Guard - Soft Appliance, Full Arch  |
| D9946 | Occlusal Guard - Hard Appliance, Partial Arch   |
| D9999 | Unspecified Adjunctive Procedure, by report   |

## Section 9 Adult Emergency Dental Services

Vermont Medicaid Procedure Codes Covered for Emergency Dental Treatment for Adults after the Annual Cap on Expenditures has been Reached - Effective 07/01/2023.

**Note:** These codes are now covered under the Medicaid dental benefit and Medicaid members will not need approval via the General Assistance Voucher Program administered by the Department for Children and Families. Providers should use the "KX" modifier at the end of each procedure code when submitting claims for adult members using emergency procedures after their annual cap has been reached. This will allow the claim to pay after the annual cap has been met.

| Procedure Code | Description  |
|----------------|--|
| D0140          | Limited Oral Evaluation - Problem Focused  |
| D0150          | Comprehensive Oral Evaluation  |
| D0170          | Re-evaluation - Limited, Problem Focused   |
| D0220          | Intraoral-Periapical – First Radiographic Image                                      |
| D0230          | Intraoral-Periapical – Each Additional Radiographic Image                            |
| D0240          | Intraoral-Occlusal Radiographic Image  |
| D0250          | Extra-oral – 2D Projection Radiographic Image  |
| D0251          | Extra-oral Posterior Dental Radiographic Image                                       |
| D0270          | Bitewing-Single Radiographic Image   |
| D0272          | Bitewings-2 Radiographic Images  |
| D0274          | Bitewings-4 Radiographic Images  |
| D0330          | Panoramic Radiographic Image   |
| D2940          | Protective Restoration   |
| D3220          | Therapeutic Pulpotomy (Excluding Final Restoration)                                  |
| D3221          | Pulpal Debridement, Primary and Permanent Teeth                                      |
| D7111          | Extraction, Coronal Remnants - Deciduous Tooth                                       |
| D7140          | Extraction, Erupted Tooth or Exposed Root  |
| D7210          | Surgical Removal of Erupted Tooth Requiring Elevation of Mucoperiosteal Flap         |
| D7220          | Removal of Impacted Tooth - Soft Tissue  |
| D7230          | Removal of Impacted Tooth - Partially Bony   |
| D7240          | Removal of Impacted Tooth - Completely Bony  |
| D7241          | Removal of Impacted Tooth - Completely Bony, With Unusual Surgical Complications     |
| D7250          | Surgical Removal of Residual Tooth Roots (Cutting Procedure)                         |
| D7260          | Oral Antral Fistula Closure  |
| D7261          | Primary Closure of a Sinus Perforation   |
| D7270          | Tooth Reimplantation and/or Stabilization of Accidentally Avulsed or Displaced Tooth |
| D7285          | Incisional Biopsy of Oral Tissue - Hard (Bone, Tooth)                                |
| D7286          | Incisional Biopsy of Oral Tissue - Soft  |
| D7410          | Excision of Benign Lesion up to 1.25 cm  |

| Procedure Code | Description  |
|----------------|--|
| D7411          | Excision of Benign Lesion greater than 1.25 cm                                   |
| D7412          | Excision of Benign Lesion, Complicated   |
| D7413          | Excision of Malignant Lesion up to 1.25 cm                                       |
| D7414          | Excision of Malignant Lesion greater than 1.25 cm                                |
| D7415          | Excision of Malignant Lesion, Complicated  |
| D7440          | Excision of Malignant Tumor – Lesion Diameter up to 1.25 cm                      |
| D7441          | Excision of Malignant Tumor – Lesion Diameter greater than 1.25 cm               |
| D7450          | Removal of Benign Odontogenic Cyst or Tumor – Lesion Diameter up to 1.25 cm      |
| D7451          | Removal of Benign Odontogenic Cyst or Tumor – Lesion Dia. greater than 1.25 cm   |
| D7460          | Removal of Benign Nonodontogenic Cyst or Tumor - Lesion Diameter up to 1.25 cm   |
| D7461          | Removal of Benign Nonodontogenic Cyst or Tumor - Lesion Dia. greater than 1.25cm |
| D7465          | Destruction of Lesion(s) by Physical or Chemical Methods, By Report              |
| D7510          | Incision and Drainage of Abscess - Intraoral Soft Tissue                         |
| D7560          | Maxillary Sinusotomy for Removal of Tooth Fragment or Foreign Body               |
| D7910          | Suture of Recent Small Wounds up to 5 cm   |

| D9110          | Palliative (Emergency) Treatment of Dental Pain - Minor Procedures               |
| D9222          | Deep Sedation/General Anesthesia – First 15 Minutes                              |
| D9223          | Deep Sedation/General Anesthesia – Each 15 Minute Increment                      |
| D9230          | Inhalation of Nitrous Oxide/ Analgesia, Anxiolysis                               |
| D9239          | Intravenous Moderate (Conscious) Sedation/Analgesia – First 15 Minutes           |
| D9243          | Intravenous Moderate (Conscious) Sedation/Analgesia – Each 15 Minute Increment   |
| D9248          | Non-intravenous Conscious Sedation   |
| D9920          | Behavior Management  |

## **Section 10 Special Investigations Unit**

Vermont Medicaid pays only for services that are actually provided and that are medically necessary. In filing a claim for reimbursement, the code(s) should be chosen that most accurately describes the service that was provided. It is a felony under Vermont law 33VSA Sec. 141(d) knowingly to do, attempt, or aid and abet in any of the following when seeking or receiving reimbursement from Vermont Medicaid:

- Billing for services not rendered or more services than actually performed
- Providing and billing for unnecessary services
- Billing for a higher level of services than actually performed
- Charging higher rates for services to Vermont Medicaid than other patients
- Coding billing records to get more reimbursement
- Misrepresenting an unallowable service on bill as another allowable service
- Falsely diagnosing so Vermont Medicaid will pay more for services

For more information on overpayments and potential interest charges, visit the General Provider Manual, section 6. <a href="https://vtmedicaid.com/#/manuals">https://vtmedicaid.com/#/manuals</a>

Suspected fraud, waste or abuse should be reported to the DVHA Special Investigations Unit at <a href="https://dvha.vermont.gov/providers/special-investigations-unit">https://dvha.vermont.gov/providers/special-investigations-unit</a>, telephone 802.241.9210, or the Vermont Medicaid Fraud Control Unit of the Vermont's Attorney General's Office, telephone 802.828.5511.
